One of the most fun board games on the market, with ridiculous amounts of replay value. Highly recommended to anyone who likes strategy games!! 10/10 solid game, pure llama slaughter satisfaction. There's nothing that hits my llama murdering needs like this game. Every person who believes llamas are pure evil will get their tinfoil hats after playing this game for 10 minutes. Let the llama murder commence #llamanatiMustFall. This is an excellent hidden gem that combines neat puzzle mechanics with excellent visuals for an impressive little title.. The art for the game is bad and lazy, the animation is basically non-existent, the sound design makes me want to die, the music is either horrible or cliché, usually both. Also tons of bugs.. **Satisfying**

2 X the Fun. Another Triumph. HOW TO PLAY WITHOUT GETTING STRETCHED SCREEN PLS HELP. This is a largely enjoyable game if you are into driving trains, but are unable to do so in real life. The included content is somewhat limited, requiring one to purchase very expensive DLC to further enjoy the experience, which can add up very quickly. Also it has very limited localisation, limited itself to NYC, Germany, and England. It would be improved with the likes of the TGV and ICE, Japanese Bullet Train, the Shanghai Maglev, as well as some Australian content, which is sorely lacking in many similar products.. This game is definitely confusing...will it scare you? Yes YES IT WILL, but after awhile you are very confused as what to do...if you are going in the right place? No clues at all...no clues, so it is a huge maze. If they update it or kinda tell you what you are supposed to do then yeah it can be a great game. The jumpscars can only get you so many times...

[AT THIS MOMENT, I do not recommend it, but in the future very possible.](#)

Game crashes on startup, had to press the start button like 5000 times to get my play time up to 5 mins so I can write this review. followed all the guidelines, no help from capcom, will refund in a week before my refund time runs out if problem cannot be fixed.. Amazingly enough, this isn't bad at all!
smoothly optimized, the graphics are appealing - 3D bubsy hasn't looked this good, probably ever.

It plays out much like you expect a bit trip runner style game to play, only this one breaks things up differently. you have the three base chars of Bubsy, Vergil and Wooloie to complete their own version of each level, and if you collect three Arnold token pieces for each char, it opens up a special stage for arnold where you basically play the special stages from Sonic 2.

The humour and writing is on-point, Bubsy knows he's a washed up has been, or more like - a never was - but still has his charm of being super cocky as well.

You collect yarn in the levels, and you can use that yarn to unlock outfits for your 4 characters - Bubsy has the best ones, imo.

The 4 charas all play wildly different, Bubsy controls as expected - vergil has a double jump and a ground pound, and Wollie is a ufo - so she can move anywhere, whenever - and has to shoot down foes as well. It's a nice way to break up pacing, so you aren't feeling like you're just replaying the same level 3 times, with a different skin.

You earn completion medals for each char, and those unlock more levels.

The amount of polish in this is pretty nice to see, and yeah - a Bubsy game that's actually good, who would've guessed?

<https://www.youtube.com/watch?v=A2v6pRnCTWQ>. Third room still to go but definitely worth the money. One small con is that items may be lost for good some times. Had to restart the first room once because of that.. "Fist Full of Frags". This is a great game and the best part is, its "FREE". The Multiplayer is not outstanding but it does have a lot of fun to be had. Now if you are looking for quick reloading in this game, then this is not the game for you. The western style of the game is unique and honestly a breathe of fresh air. To many fps games now of days have a futuristic setting and it's getting old. That's why this "Wild West Theme" is nice and different in the fps community.

Pros: A lot of action, and the game mechanics are easy to pick up
The theme is interesting
Weapon Variety

Cons: Servers can get lag at times, so find a server with about 10 - 20 people, servers over 27 will lag
Lack of new addons from the community (there's some but there older), and updates

Score: 9/10 "It's free and has good gameplay. It's worth trying"

P.S If you are a fan of the following

- The Man with No Name Trilogy
- Once Upon a Time in the West
- John Wayne Westerns
- The Unforgiven (directed by Clint Eastwood)
- Chuck Norris
- Texas
- Whiskey
- Guns
- America

- Or any other Western related thing..... then this game is for you.. Short, but a pretty amazing game. Makes you think and has an epic storyline to follow. Highly recommended for puzzle game fans.. This is a great little game. It is relatively quick to run through but is full of humour and interesting choices to make. It is fun to play and well written. :)
